

## Feedback for RRMP Literature Review Summative

Tutor completing summative feedback: Karen Outram	Student number: 415085
Details of any extensions etc:	Submission Attempt: First submission Second submission

Criteria and weighting	Level	Comments
<b>Knowledge and understanding of the topic/ issues under consideration (30%)</b> To provide an overview of current knowledge on the chosen topic	Excellent	Generally excellent knowledge of the topic with an appropriate theoretical, practical and intrinsic knowledge of the subject matter. You could have developed the discussion a little more in places, and this would have likely happened if a little deeper research had taken place, but the strength of the assignment is in its strong and linear core, that moves from one point of the discussion to another with ease.
<b>Criticality (30%)</b> To highlight similar and contrasting views on your chosen topic	Excellent	There is a strong and fluid discussion occurring in your content. The flow of the assignment moves easily from one point to another and the critical discussion naturally unfolds as the assignment progresses from one point to another. The content feels well managed from a time perspective with regular citation and a list of references underpinning your theoretical application appropriately.
<b>Use of relevant sources (20%)</b> To demonstrate an awareness of relevant, current literature	Very Good	Generally, very good but you could further expand your research resources to give more breadth to the content generally. There is some repetition in your assignment here and there, with similar things being said in slightly different ways. If you expanded your research resources, you could develop the discussion more, keeping the content and research on track, but diversifying more points within the core argument to give your research content more depth and breadth generally. Please consider this point when completing your next summative.
<b>Structure and Presentation (as detailed in the assessment guidance) (10%)</b> To showcase your research and writing skills.	Excellent	Generally, excellent structure and presentation in the content. Your academic writing style is appropriate and accessible. The assignment itself is laid out using appropriate academic conventions, my only comment here is that some of your paragraphs are little on the small side. Amalgamate some of your content so that paragraphs are a little longer here and there.

<b>Academic integrity (10%)</b> To showcase your research and writing skills.	<b>Very Good</b>	As already mentioned, some of your written content here and there is a little repetitive and so work on expanding all your written content as much as possible using diverse research to draw out more depth in the discussion. Overall, appropriate application of academic integrity throughout the summative.
Overall		
<b>Positives:</b> <ul style="list-style-type: none"><li>• The content flows well from one point to another, with a core discussion occurring in the content which is appropriate</li><li>• There is a strong academic written style, that is written in accessible language</li><li>• The assignment feels well planned</li></ul>		
<b>Points for development:</b> <ul style="list-style-type: none"><li>• You could have expanded on your research a little to gain more general depth in the assignment here and there</li><li>• This would have limited some of the points of repetition in your content</li><li>• Don't break your paragraphs down too much, as this in turn can limit or fragment points of discussion</li></ul>
